REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not specifically disclose or remotely suggest

With regard to independent claims 1, 14, and 21:

communicating **by a user** with a service processor of a predetermined boot node of the plurality of nodes **to enter partition configuration information** for the single-partition merged system, the partition configuration information specifying at least **which of the plurality of nodes is to be a primary node** of the single-partition merged system to be constructed and **which of the plurality of nodes are to be secondary nodes** of the single-partition merged system to be constructed;

wherein the plurality of nodes are merged into the single-partition merged system that is configured based on the partition configuration information, **each node having at least a primary processor other than the service processor of the node.**

In addition, Examiner points to the arguments of Applicant's representative (Arguments on 9/28/07; pp. 8 – 13).

2. These limitations, in conjunction with the other limitations in the independent claims, are not specifically disclosed or remotely suggested in the prior art of record.

A review of claims 1 – 25, in view of the Examiner's arguments above, indicates that claims 1 – 25 are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
